

ONLINE MATCHING SYSTEM

Newsletter – February 2020

Dear Everyone,

This new letter is about **the Anonymous Message System**

Your first message...

Writing to someone via the anonymous messaging system is not an interview. It should be very nice, coming from your heart. Don't be afraid, it is anonymous for a reason. So, tell God to write the words, not you.

What about...

“hello, how are you? I may not have the physical characteristics of your desire, but I may have what you are looking for in your soul. I have read your profile and that is the reason why I am writing to you. I found your profile talking to me and telling me that maybe we should talk. So, I am saying hello.”

Sometimes we reject...

Sometimes we reject each other because of age, because of where we come from, or because we believe that a person from a certain country or culture is what I should have.

Ask God...

Have you ever asked God what kind of spouse you should have? If you did, God will never say, “I want you to have someone from this country, or from this race, or from this type of education”. No, God will never say that.

God will say...

You are asking me which kind of spouse should be best for you? Then answer me this question, what kind of spouse can you be for someone? Are you kind? Are you loving? Are you generous? Are you color blind? Me, your Heavenly Parent, want you to seek someone you can love with you of these traits.

Don't be afraid, trust God and trust yourself.

May God bless you all,

With gratitude, always,
Anne-Marie
