The iPad can take videos, give directions, and remind you to wish your mother a happy birthday, but unfortunately doesn't support Adobe's Flash platform. Flash is used on websites, animations and video on the web. In order to view Flash content you will need to install a browser app that can access Flash websites.

1 **Download a browser app that supports Flash from the App Store.** Puffin Web Browser is one option that offers a free version.

2 Tap the Safari icon to launch the Safari web browser.

3 Browse to the site you want to view and tap the URL bar twice. Tap *Select All* from the menu that appears.

4 Tap *Copy* on the next menu that appears.

5 From your iPad's Home screen, launch your Flash compatible browser by tapping its icon.

6 Tap the URL bar within the app and tap the X to clear the current web address.

7 **Tap the URL bar again and tap** *Paste* **from the menu that appears.** Now tap Go on the on screen keyboard.
