

ONLINE MATCHING SYSTEM

August, 2013 Newsletter

The incoming tide flows in very quickly in the beginning. You do not realize how fast it is. However, once the water is in and reaches the high mark, the incoming and outgoing tides exchange places in less than a minute. In this time of grace, it takes less than one minute for everyone to stand on the same level. That is why the enthusiastic youths of the Unification Church can be blessed together with people from the satanic world, and the world population of five billion can be united overnight. In this way, tens of thousands of families would be connected horizontally through the Blessing. Then God's nation will be established. In establishing that nation, these families will emerge as the ancestors. (253-299, 1994.1.30) CSG page 1451

Dear Brothers and Sisters,

In September of 2009, in Kailua-Kona, Hawai'i I sat down and created the outline of what would become OMS, the Online Matching System for Unificationists. A year later, the Blessed Family Department of the USA made it available to all adult Unificationists seeking the Blessing. Within a few months, registration began to come from Europe and South America and some will trickled in from Asia and Oceania, as well. Africa and the Middle East were not far behind. OMS has become a precious tool that some BFDs heavily rely upon to help the applicants for Blessing find their potential match.

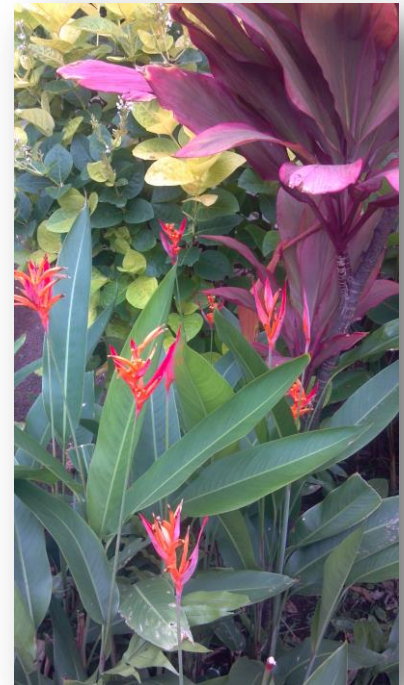

Blessing Application improvements on the way

As you may know, here in America, we have had the actual Blessing application online for about a year. Major upgrades are on their way. Until now candidates to the Blessing had to fill out two separate applications, one with the BFD and the other with OMS.

These two different applications have confused a lot of people.

We are about to link both of them so that when the Blessing application is completed it will flow automatically to the OMS database. Only the relevant information necessary to find a potential match will be imported into OMS.

At this time these improvements affect only the North American continent. All other countries will continue to use OMS as they have been using it.

ONLINE MATCHING SYSTEM

Online Matching System – Other languages

Shortly the interface of OMS will be viewable not only in English but also in Portuguese. Because of the extensive use of OMS by our brothers and sisters from Brazil, Portuguese is going to be the first language, after English, that will be available to OMS users.

WORD OF MOUTH – THE BEST ADVERTISING

I am truly grateful for your trust and your continued support. I will do my very best to never disappoint you. Please bear in mind that the best advertising is Word of Mouth and in addition every little donation that you are able to give at this time goes to make OMS the best tool available for the search of one's heavenly spouse.

May God bless you always,

Anne-Marie Mylar
Administrator of OMS
President of Cheon Il Guk Incorporated
